2. Activities in Lithuania

Apartment buildings maintenance.

Maintenance of apartment buildings remains the most important area of the Group companies' activities on the Lithuanian market. This year the quality of the provided services and customer care was further improved and developed.

In order to reduce the heat loss in the maintained apartment buildings, the Group companies continued to implement the "5 steps heat saving programme", according to which heat saving tools were implemented in buildings. The residents were provided specific proposals on the ways of reduction the heat loss both inside apartments and in the premises of common use.

A Group company Mano Būstas LT continued implementing apartment building renovation projects according to the JESSICA programme – renovation of already a second apartment building in Vilnius was completed. About 50 more apartment buildings expressed their wish to participate in the modernization programme during the first half of the year.

In the last year a part of the company's customers in Lithuania were provided access to the new self-servicing portal, at which one can conveniently pay for utility services, view payment notices, find comprehensive information on the works, planned in the building and contact the manager, servicing the building. During the first half of 2013 access to the new portal was provided to almost all the customers in Lithuania.

The residents' survey, performed this year, showed that apartment building owners value the services, provided by the company even better. The latest customer opinion survey showed that, compared to 2011, in 2013 the amount of the company's supporters grew by 66%.

At present the area of apartment buildings, maintained by Mano Būstas LT in Lithuania exceeds 8.5 million sq. m.

Elevators maintenance and renovation.

In the first half of the year the Group companies Baltijos Liftai and Šiaulių Liftas increased the number of maintained elevators up to 1403.

The segment of services, relating to elevators modernization was also developed – 8 old elevators were replaced by new ones, 2 equipment units were modernized. When performing the elevators modernization projects, the Group companies, in line with the EU directives and standards, strive for renovating the elevators in the country's largest cities, which reached the limit of the operating period. Totally about 7 thousand elevators are installed in Lithuania's apartment buildings.

During the first six months of the year the Šiaulių Liftas company installed 33 equipment units at public and commercial objects.

In 2013 the Group companies are going to continue to extent the range of services in the commercial facility segment, while modernization and replacement of old elevators in apartment buildings will remain the main task. About 10 elevators more are planned to be replaced or renovated during the second half-year.

Commercial, industrial and public facility management.

The Group companies continued to strengthen their positions in the area of management of commercial and public facilities. During the first half of this year the range of customers was extended – several tens of new contracts were signed. A good deal of the contracts is of exceptional significance, dealing with the objects, requiring specific and especially highly qualified maintenance.

One of such objects is the 22 solar power plants in Kaunas, Vilnius, Klaipėda and Utena districts, whose maintenance was entrusted to a Group company.

In May a Group company commenced provision of facility management services to nine “Impuls” sports clubs throughout Lithuania.

The company started providing its customers the automated energy monitoring system, giving the possibility to efficiently control buildings' energy consumption, notice energy over-consumption in due time and take efficient measures in order to reduce energy costs.

Among other innovations worthy of note is the fact that this year a Group company commenced providing maintenance services to newsstands throughout Lithuania. Totally 261 objects are maintained.

In addition, a contract for maintaining 26 ORLEN petrol stations was signed.

In the second half of this year the Group companies are going to continue their active participation in commercial, industrial and public facility management tenders, increase the area of maintained objects and expand the range of facility management services.

**Maintenance and cleaning of territories.**

The Group company Naujamiesčio Būstas won the tender for maintaining a part of the capital's territory, announced by the Vilnius City Municipality. The agreement was signed for the five years' period.

In the first half of the year the Company Group was extended by a new enterprise – Mano Aplinka, a company, engaged in cleaning and territory maintenance. At present the Company provides services in Vilnius, Kaunas, Klaipėda and Biržai. In the future the company will also perform its activities in other cities and towns of the country.

The new company takes over all the agreements, signed with the cleaning division of Naujamiesčio Būstas. The staff of the division is going to be transferred to Mano Aplinka.

positions was reduced, there was an opportunity to raise salary to the full-time professionals employed in the Company; criteria applicable to the quality of works were improved and steps were taken to make the employees more loyal.

3. Activities in foreign markets

3.1. Poland

In the first half of this year a Group company performed active organic development.

In June a Group company ZZN won the tender for administering the apartments, territories and other premises, belonging to Poznan city municipality. The total area of the object, transferred to ZZN, amounts to 1.35 million sq. m. The contract is signed for the period of four years, the contract value is PLN 24.7 million.

Upon involving other associations ZZN increased the maintained area by more than 235 thousand sq. m.

City Service also won other tenders in Poland this year. A Group company started to maintain 1.35 million sq. m. premises of the Financial Supervision Authority in Warsaw as well as the municipal dwellings in Siechnice and Olecko municipalities, the total area – about 32 thousand sq. m.

Reaching for more rapid development, the company's organizational structure was modified. 22 divisions were attached to 3 regions, regions' directors were appointed from the existing employees.

The LEAN implementation procedures were commenced: 2 companies performed audit of activities of 4 of the company's divisions, one of them is going to be chosen as the company's LEAN consultant.

Upon reviewing and modifying the services and goods provision contracts, up to PLN 600 thousand is expected to be saved during the year.

Audit of heating facilities was performed and activity guidelines were outlined. This should improve the division's activity indicators and extend the range of provided services.

In the second half of the year a Group company is going to continue active participation in most administration services procurement tenders, organized by municipalities, strive for attracting new customers and increase the efficiency of activities.

At present the total area of facilities, maintained by the Group company, amounts to more than 9 million sq. m

3.2. Russia

During the first half of 2013 the Group companies continued the activities in the areas of apartment building administration, territories cleaning and heating metering equipment maintenance. The Group companies also actively participate in tenders for maintaining commercial facilities.

A new company was launched, which, starting from 1 July commenced providing elevators maintenance services in Saint-Petersburg. In 2013

the elevators maintenance service will be provided only to a part of the Group companies, however the volumes will grow in the future.

Further on significant attention is dedicated to improving the efficiency of activities – the activity optimization experience, gained in Lithuania, is being transferred by developing the LEAN projects. Upon completing one of the first LEAN projects, the heating metering equipment backup system was implemented, which provides the possibility to reduce the usual verification period 20 times, while not losing any revenue from the maintenance of heating metering equipment when performing the verification works. The projects, aimed at improving the quality of repair works and optimization of materials supply and warehouses operation are continued.

At present the total area of the facilities, administered by the Group, amounts to about 4.2 million sq. m.

3.2. Latvia

The Group company Riga City Service continued to develop the public sector facility management segment and extended the range of commercial facility management customers.

In the first half of the year several especially important agreements were signed. Among them is the agreement with Latvian state energy company Latvenergo for maintaining the objects of its subsidiary Latvijas Elektriskie Tīkli. The total area is larger than 30 thousand sq. m. and the managed territory is 274 hectares.

The company continued to successfully increase the area of maintained commercial facilities, signed the agreement and commenced providing complex facility management service to all the Iki stores, managed by the Palink company, operated in Latvia.

At present Riga City Service maintains 52 Iki stores with the total area larger than 58 thousand sq. m.

In the second half of the year a Group company is planning to commence administering apartment buildings, procure strategic companies and extend the range of customers in the commercial segment.

At present the area of facilities, maintained by Riga City Service reaches 681 thousand sq. m., the managed territory amounts to 2.8 million sq. m.

4. Improving efficiency of activities

In 2013 the Group companies' activities were further improved in line with the LEAN optimization methodology. In the first half of the year the activities efficiency solutions, implemented in Lithuania, were commenced to be applied by the Group companies, operating on foreign markets – in Russia, Poland and Latvia.

In Lithuania LEAN was continued to be developed in different divisions of the Group companies. Especially significant attention was dedicated to involving employees of different profiles into the continuous improvement of activities. The processes attained active participation by managers of all levels.

At present already 35% of all the Group companies' employees in Lithuania are involved into the improvement processes, i. e. two times more than last year. In the first half of the year employees of the commercial segment participated in the LEAN activities especially actively, their involvement reached 70%.

The LEAN changes had positive effect on the Group companies' development and the sales processes. Upon purifying the customers' needs, at present the Group companies not only maintain facilities, but also provide rational energy resources consumption services and solutions.

In the second half of the year the LEAN optimization activities are going to be continued, dedicating especially large attention to the Group companies, operating on foreign markets.

5. Employees

The National Association of Facility Administrators, in which the Group companies are members, has received the EU support, according to which the employees are going to be trained to develop their customer servicing, sales, meeting conducting and time planning skills. In turn, the managers are going to receive training on management peculiarities.

In the first half of the year the Group companies' visions and values were reviewed. The entire staff of the Group took active participation in the process. The values communication plan will be developed in the second half of the year.

This year significant attention will continue to be dedicated to the staff's training and qualification development.
